

Leica DISTO™ D5

Powerful partner for Outdoors

World First: Digital Pointfinder with 4x Zoom!

The Leica DISTO™ D5 has the only high resolution 2.4" digital color point finder display and a 45° tilt sensor in the industry. These features combined with a host of calculation functions make the Leica DISTO™ D5 the best hand-held digital laser distance meter ever!

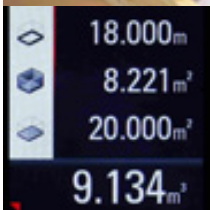

Digital Pointfinder

The integrated digital Pointfinder with a 4x zoom and 2.4" color display makes finding the target at long distances much easier. Its high resolution capability provides a sharp, crystal clear image, which allows measurements to be taken even in glaring sun light.

Tilt measurement

Thanks to the in-built tilt sensor, you can quickly and simply measure tilts up to $\pm 45^\circ$. The tilt sensor also allows you to measure absolutely horizontally or measure past obstructions (horizontal distance).

Details Displayed.

Additional information about the measurements, e.g. room dimensions or angles, is available at the touch of a button.

Features

- Measuring Range of .16' to 650' (± 0.06 in)
- Digital Pointfinder with 4x zoom and high resolution color display
- Tilt measurements
- Horizontal distance measurements using Tilt sensor
- Trapezium function
- Pythagorean functions
- Detailed display

Your Advantages

- Fast and accurate distance measurements on a detailed display.
- Convenient measuring to distant objects, even in strong sunlight
- Measure angles between $\pm 45^\circ$ at the touch of a button.
- Its no problem to determine distances despite obstructions.
- Simple and quick measurement of roof slopes and facade areas
- Indirect height and width measurements at inaccessible positions
- Additional measurement information available at a touch of a button, e.g. angle information

What comes in the Box:

Leica DISTO™ D5, Holster, Hand Loop, Batteries (2 AA 1.5v), Manual, safety Instructions, Quickstart guide

Technical Data	Leica DISTO™ D5
Typical Measuring Accuracy	± .06 inches
Range	0.16 ft - 666 ft
Power Range Technology™	Yes
Distance in feet Diameter of Laser Dot in inches	33 ft, 167ft, 328 ft 0.2", 1.8", 2.36"
Minimum/Maximum Measurements	Yes
Continuous Measurements	Yes
Addition/Subtraction	Yes
Area/Volume Measurements	Yes
Room Calculation	Yes
Pythagoras Calculation	Yes
Tilt Sensor Horizontal Dist.	Yes
Tilt Sensor Measuring Range	±45°
Accuracy to Laser Beam	±0.3°
Accuracy to Housing	±0.3°
Tilt Sensor display units	±0.0°, 0.00%, mm/m, in/ft
4 Folder Digital Viewfinder	Yes
Store Constant Value	1
Recall Last Values	20
Time Delay Release	Yes
Display illumination	Yes
Measuring Units	0.0000m, 0.000m, 0.00m, 0.00 ft, 0' 0" 1/32, 0.00", 0 1/32", 0.000 yds
Measurements Per set of Batteries	Up to 5,000
Multi-functional End Piece	Automatic
Tripod Thread	Yes
Batteries	Typically AA 2 x 1.5v
Spray proof/dust protected IP 54	Yes
Dimensions	5.65"x2.12"x1.18"
Weight with batteries	6.88 oz

Warranty 24 months as of the date of purchase. Extended warranty 36 months on instrument after being registered with Leica Geosystems within eight (8) weeks of purchase.
